

Environmental Instrumentation Service and Support

Hoskin Scientific Limited, an established Canada-wide distributor of Environmental Monitoring Instrumentation, is looking for a Service and Support person. Continued company growth has created an opportunity for a technically oriented individual to grow with us in the environmental field.

Description of the Position:

- would work primarily within the Hoskin office here in Burlington,
- handle incoming, outgoing customer and supplier issues regarding a wide range of instrumentation however Sutron data collection, telemetry products and systems will be the primary focus
- with time and demonstration of appropriate skills you may become involved in onsite training and installation of systems and or customer support. This may involve some travel.
- assist clients in the selection of the proper instrumentation and software configuration
- demonstrate, and help support products where required
- work with the inside sales people and service manager to provide service quotations
- participate in marketing and sales promotional activities such as trade shows and meetings
- work within our database management and sales forecasting system

Qualifications:

- post secondary education in Environmental Engineering, instrumentation or electronics technician, relative experience will be considered
- An understanding and demonstrate-able capability to operate as a team player within a positive sales, service and support environment
- manage time efficiently
- solid computer skills particularly in MS Office
- fundamentals of data acquisition as it relates to field data monitoring and telemetry.
- good communication and organizational skills
- bilingualism skills would be an asset

Products and Lines you will be exposed to:

- “Sutron Monitoring Instrumentation”
- “YSI water quality products
- “Onset” dataloggers and monitoring instruments

A wide range of instrumentation may be encountered with time.

Additional information on our instrumentation product lines may be found at;
<http://ehoskin.xplorex.com/>

Compensation:

- Competitive base salary based on previous experience
- Benefit Program

We are looking for a technically oriented “hands-on” individual who has the skills and patience to provide solid technical support.
