

**OPTICAL INSPECTION AND MEASUREMENT INSTRUMENTATION
INSIDE SALES AND SUPPORT**

Hoskin Scientific Limited, an established Canada-wide distributor of Industrial Test and Measurement Instrumentation is looking for a motivated individual to join our team. This position provides primary sales and technical support to a group of regional sales staff. This includes microscopes, precision measuring equipment, wafer inspection systems digital imaging products and software. Optical and digital imaging technology for semiconductor and industrial applications will be the key range of products you will work with.

The individual should possess a familiarity in optical measurement, metrological instruments, or microscopes used in the industrial environment. Having a post secondary education in Engineering, Physics, and/or Electronics would be a definite advantage.

The position requires effective communication with our clients on their projects and applications. A close working relationship with our sales engineers and suppliers to support sales efforts is a key part of this opportunity

We offer a competitive remuneration package and a full range of benefits. Interested candidates should send their resume in confidence to:
